Made of steel, the left-facing Paradiso Gold & Silver Wall Sconce has a lyrical shape inspired by the *Strelitzia reginae*, more commonly known as the Bird of Paradise plant.

The limbs that arc up and away from a central cone are in a contemporary silver leaf finish, while the blossoms that flow around the light bulbs are in a contemporary gold leaf finish. This silver and gold sconce is an example of how nature-inspired design elements are driving the biophilic movement.
