PRODUCT DESCRIPTION

A staple in modern design, the square block form is the perfect minimalist accent to your home's interior or exterior elevations. The third iteration in this concept, the cubes are enabled with updated features that include range voltage input for both residential and commercial applications, an adjustable beam angle structure within the die cast housing allows the end user to set the light spread from either the top or bottom individually, and the sconces meet the dimensional extension compliant for ADA applications. Available in Black or Satin Aluminum finishes rated for outdoor, this modern design just got better.
