INSTALLATION

*Hardwired installation requires room in the J-box for the included external power adapter (2" x 1" x 1.25"). Typically mounting kit is used. See mounting options on this page

The Libri is about function and ease: an extremely articulate directional task light in a discrete and sturdy form that is very intuitive to use.

Nick Sheridan,
 Designer

MOUNTING OPTIONS

Mounting kits are sold separately from the Libri fixture.

No Mounting kit is required if the Libri fixture is to be installed using the Direct Mount option.

Direct Mount

Direct mount option is used when mounting directly to a headboard. There is no backplate and the cord must be fed through a hole in the headboard directly behind where the fixture is mounted and plugged into a wall outlet using the included AC adapter.

Libri Mounting Kit sconce backplate

J-box Backplate: Mounting Kit (3)

J-box backplate is typically used when mounting to a J-box. Hardwired installation requires room in the J-box for the included external power adapter (2" x 1" x 1.25").

Wall Mount Plug-in Backplate: Mounting Kit (1, 2)

Wall mount plug-in backplate is used when mounting directly to the wall and plugging into a wall outlet. The wall mount is an elongated rectangle that allows the cord to exit discreetly below the fixture.
