LAMP

FRAME

TAB

STATIONARY TAB

GLASS PANEL

1	Install the glass one panel at a time into the frame by first inserting it into the bottom stationary tab, position the panel in place, then bend the top tab to secure the panels in place.
2	Secure the mounting plate to the junction box.
3	Connect the fixture to a suitable ground in accordance to local electrical codes.
4	Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
5	Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
6	Neatly place all the wires into the junction box, place the fixture base onto the mounting plate, and secure it in place with cap nuts.
7	Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
