1 Secure the mounting plate to the junction box.

2 Connect the fixture to a suitable ground in accordance to local electrical codes.

3 Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.

4 Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.

5 Neatly place all the wires into the junction box, place the fixture base onto the mounting plate, and secure it in place with cap nuts.

6 Access the lamp by opening the door. Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
