

DESCRIPTION

Our New Generation of the Reveal, washes the wall from the very top of the ceiling to the floor. Recessed within 5/8" drywall, without the need for joist modification. The 24VDC low-voltage system uses PureEdge's superior designer-grade 95+ CRI LEDs rendering art and color in their truest forms while producing uniform brightness. Simply mount the slim profile, plaster-in extrusions within the profile of 5/8" or thicker drywall 24" away from the projected wall, position our LED soft-strip within the channel, connect to the low voltage power supply then, plaster over the edges and paint to match the surrounding surface. The system is sold in 1' increments up to 20' and can be cut in the field to any length. Continuing to redefine the relationship between lighting and interior design, Reveal Wall Wash invokes dramatic yet refined illumination by highlighting art and creating depth of architectural features. Remote Power Supply is required and ordered separately. Coordinate installation with electrician and drywall contractors. Includes a 5 year pro-rated warranty. For custom quotes, email our design team: design@PureEdgeLighting.com.

DESIGN NOTE

Reveal Wall Wash is an ideal wall washing solution for any space, highlighting art and creating depth within architectural features. Multiple runs of channel mount seamlessly together and may wrap inside corners to wash surrounding walls with uniform controlled illumination up to 95+ CRI.
