

Desk

Streamlined Flexibility

# Z-Bar mini desk lamp

Z-Bar mini is designed for smaller desks and workspaces. An improved joint design allows for a cleaner profile and greater articulation. The improved optics avoided multiple, harsh shadows, and producing soft, even shadows. Compatible with various desk and wall mounts. The "Pro" version comes with an occupancy sensor and USB port for charging compatible devices. It also allows users to choose and adjust their color temperatures (from 2,700-5,000 K) to coincide with their circadian rhythms.

### Mounting Options/Accessories\*

# **LEED Information**

- \*Limited finishes available on mounting options
- \*\* Not available for standard model
- \*\*\* Not available for Pro model

#### **Integrative Process**

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.

Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

# Interior Lighting

To promote occupants' productivity, comfort and well-being by providing high-quality lighting. Koncept's portable task lighting products provide more than three lighting levels that occupants can easily adjust to suit their needs. Furthermore, all Koncept lighting products use high quality LED light sources with CRI over 90 and L90 rated lifespan over 60,000 hours. Desktop and task personal lighting also provide the opportunity to reduce overhead lighting.

## Z-Bar mini

- \*Comes in warm light only
- \*Desk base comes in matching finish, other mounting options comes in black finish.
- \* This lamp is a partaker in the Tangerine charity campaign. Visit koncept.com/Tangerine for more information
