### Caution

**Before assembling and installing this product, carefully read the following:**

-Never use a bulb with a wattage exceeding the recommended one. Always use a bulb with the recommended wattage or lower.

-If the steel cable or the power cord of this lamp is damaged, it must be replaced only by the manufacturer or their technical service or by a person capacitated to this effect to avoid any risk.

-This lamp is for indoor use only, excluding bathrooms or any type of humid surface.

-At least two people are needed to install and desinstall the lamp.

**IMPORTANT NOTICE:**

**Caution: to avoid possible electrical shock, make certain electricity is shut off at main panel before wiring.**

1. Introduce the column (A) into the axe in the basement (B) as shown in the drawing.
2. Fix the screw (C) to the column (A).
3. Introduce the arm (D) with the cables passing in the interior into the column (A) as shown in the drawing.
4. Fix the screws (E) to the arms (D) and connect the cables.
5. Introduce the end (F) of the cables into the balance tube and tight it with screw driver as shown in the drawing.

6

6. Connect the fixed lamp support (G) set into the arms socket and tighten with the nuts (H). Fix the lamps and the screen. Introduce the hilt (I) into the axle switch (J) and tighten it to a firm support.  
7. Remove the screw (A) fixed in the counter-weight situated in the interior of the column using the supplied Allen key
