

# PUCK

Design by Jordi Vilardell.

## Reference

**5410.**

## Application

Ceiling Fixtures

## Installation type

Surface mounted

## Description

Design by Jordi Vilardell. Made in Spain by Vibia. Puck achieves great purity of line and beauty of form. The use of triplex opal blown glass of the highest quality and the white cast aluminum body gives the product a perfect finish. Puck produces warm diffused illumination without glare. Whether selecting the single button of glass or a design with multiple diffusers each design only requires one junction box for mounting. This allows for extending the illuminated design. Available in 7 sizes, with choice of Halogen or LED lamping they are suitable for wall or ceiling applications.

## Diffuser

Matte triplex opal blown-glass diffuser

## Materials

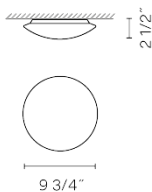

Diffuser: Blown-glass

## Finishes

**5410-03** White (RAL 9016)

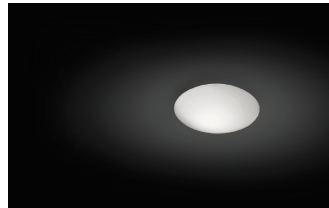

## Sketch

## Electrical characteristics
