Description

LED portable lamp with a battery that can be recharged by USB and the light can be dimmed with the touch dim system. Misko Camp is made with a metal disc clad in a sheet of walnut-colored wood or painted in black. This supports a white blown-glass diffuser, which simulates the texture of the rice paper used to make Akari lamps. Its leather handle at the top of the Misko Camp makes it easy to carry this lamp. You can also buy a base separately to fix it to the wall.
