## point pendant light

---

### product information document

The Point Table Lamp is the result of a collaboration between product designer Alex Buckman and Città's 3D design team, David Moreland and Nikolai Sorensen.

The unique lamp makes a statement with its spherical hand-blown glass shade and pared-back aesthetic. The lamp emits an ambient light from the clear, grey shade. The matte black steel column has an integrated switch at the top, allowing you to dim the light with three different brightness options.
