The battery must be removed from the luminaire before it is scrapped; the appliance must be disconnected from the supply mains when removing the battery; the battery must be disposed safely.

For further information or inquiry, please do not hesitate to contact &Tradition by mail on info@andtradition.com.

Step 1

Remove plastic slip to activate the battery. No need to open the battery compartment.

Step 2

Insert the LED light bulb, make sure to fit the plus pole (+) of the LED into the plus pole (+) on the socket. Carefully lower the shade onto the base and turn clockwise to install it.

Make sure the groove in the battery compartment are aligned with the same groove in the base.

Step 3

Before use, the battery in the lamp needs to be charged. Plug in the magnetic USB cable into the magnetic bottom of the base and connect the USB cable to a power supply.

Replacing battery

Step 1

To replace the battery, start by deattaching the shade by turning counter clockwise and lift off the shade. Take out the LED light bulb. Gently press on top of the socket until the battery compartment pops out of the bottom.

Step 2

Unscrew the screw in the battery compartment by turning counter clockwise and remove the lid.

Step 3

Take out the battery and replace it with a new battery. Place the battery correct by turning the plus and minus pole as stated in the battery compartment.

Be aware to mount the lid gently by not overturning the screw in the threading.

Remember to only use official rechargeable batteries from &Tradition. If desired, two batteries can be installed to achieve longer operation time.
